

FRANCIS GERALD D. BAUTISTA

#10 T.F. Valencia Street North Susana Executive Village
Commonwealth Avenue Quezon City
9325235, 09175098455, fgcb05@yahoo.com

22 years old 5'5" Single
September 24, 1987 150 lbs. Filipino

Job Objectives: Interested in Research, Project Management, Computer Programming, Manufacturing and Corporate Planning/Operations Research

Education: Bachelor of Science in Computer Engineering (2010)
Ateneo de Manila University

**Co-Curricular
Activities:** Block Representative (2005-2006), Sanggunian
Member (2009-present), Institute of Electronics Engineers of
the Philippines (IECEP)
Member (2007-present), Ateneo Electronics and Computer
Engineering Society (AECES)
Member (2005-2006), Ateneo Mathematics Society (AMS)

**Work-Related
Experience:** A thesis which starts with the analysis of the
different characteristics and properties (current, voltage, and
temperature) of the solar panel, charging and discharging car
batteries and analyzing the behavior of their current and voltage
states, developing automatic logging systems for the different
outputs of the system, and studying other possible applications of
the solar panel system
An on the job training which is primarily focused on working
with the Property Management Information Systems software
(PMIS) which involves analyzing and converting SQL codes in MS
Access to SQL 2000, validating the codes, packaging and
deployment of the software, and presenting the software to possible
clients

Seminars Attended: participant, Atmospheric Instrumentation Talk (August 16,
2009)
participant, Smart IT Summit (February 2009)
participant, AECES talks and Seminars: Green Technology
(August 14, 2007)

Skills and Interests: I have experience in Visual Basic, C++, and SQL. I have great interest
in working with Adobe applications such as Phtotshop, Premiere, and
Flash. My hobbies are reading books, surfing the net, collecting
die-cast cars, studying history, playing basketball and soccer, and
composing songs.
