Work Related Experience:

Assisted in the Ateneo Registration and Enrollment period as part of the LSAT by acting as a an assessor/encoder from S.Y. 2007-08 up to the last registration period and as a buffer encoder from the Summer of S.Y. 2008-09 up to the last registration period.
Clerical Works (computer work, manual and electronic filing, delivery and coordination works from one office to another) in various Loyola Schools offices as part of Service Hours as a scholar.
Conducted a Company Technology Audit investigation, research and report for Guaranfood Manufacturing (GFM).

Skills/Talents:

I can express my ideas in both English and Filipino, be it verbal or written. I am a computer literate student who actively uses the Internet and other electronic related sources and applications. I am also knowledgeable in various Microsoft programs such as MS Word, MS Excel and MS Powerpoint. I am also familiar with basic programming, particularly with C++. I also have basic skills in other engineering tools such as Autocad and simulation programs such as the Electronic Workbench and the Multisim. I am knowledgeable in basic Japanese Language. I am very hardworking, persistent and organized. I can perform critical and creative thinking and analysis. I can work and interact in different kinds of environment and with different kinds of people. I am also socially oriented and am aware of the current issues that surround our country and that of the global community.

Hobbies/Interests:

My hobbies include playing basketball and running/jogging. I do hit the gym once in a while, maybe two to three times a week. I am also much interested in reading scientific and hobby magazines/journals like National Geographic and Runner's World. I am also into reading classic and contemporary novels. I keep myself informed of various current affairs by watching news channels such as CNN and Channel News Asia and by reading local and foreign newspapers. I also enjoy spending time with my classmates and friends from inside and outside of the university. I also enjoy watching movies and documentaries every once in a while. I also do play chess every once in a while with my friends. I also listen to various genres of music.
